

MORETELE LOCAL MUNICIPALITY

BATHO PELE SERVICE STANDARDS AND SERVICE CHARTER

2025-2026

SUMMARY

In responding to the challenges presented by the legacy of the past and having to rise to the legitimate demands of citizens to be treated as customers as opposed to mere users of public services, government has passed a body of enabling legislation, known as the Regulatory Framework (Public Service Management Framework).

Public Service exists to serve the needs of the people. All citizens have the right to expect high quality public services which meet their needs. It serves to transform attitudes and culture of the public service from a “can’t do” rules bound mindset to a ‘can and will do” from “knowing” to “doing”.

A Service Delivery Charter is a statement of commitment that a department or municipality or component makes towards service delivery and it is derived from the following pieces of legislation amongst others:

The South African Constitution, Act No. 108 of 1996.
The Promotion of Administrative Justice Act, No. 3 of 2000
The Promotion of Access to Information Act, No. 2 of 2000
The Public Service Act, No. 103 of 1994
The Public Service Regulations of 2001
The Municipal Systems Act of 2008
The Batho Pele Handbook

Service Charter stipulates the level and quality of services to be provided, including the introduction of new services to previously marginalised service beneficiaries who were denied access to information and services.

The main purpose of this Service Charter is to improve awareness of the availability and quality of the services offered by the municipality. The Charter also provides guidance to service beneficiaries to claim their existing rights.
